Tree Trimming Scheduled in your area

Arborists performing vegetation management for ComEd will be working in your neighborhood within the **next 3 months**.

This is a courtesy notification.
No response is necessary.

Tree trimming to begin soon

Trees and branches that interfere with power lines can create safety hazards and cause power outages. Preventative tree maintenance helps avoid power outages.

- Within the next 3 months we will trim trees, branches and vines that interfere or have the potential to interfere with power lines.
- In some cases, tree removal may be required. The remaining tree stumps are treated with an approved herbicide to prevent future regrowth. Herbicide will be applied by state licensed applicators.
- All work is performed by trained, qualified arborists.
