Re: Purchase of new computers for FD

Mayor and Village Trustees,

Please see attached quotation from Newegg Business for the purchase of 9 Dell Optiplex 7050s computers. Our current computers are outdated by 4-5 years. Our current Microsoft operating system will no longer be supported as of January 2020. Due to the amount of HIPAA information that is stored and utilized within our system on a daily basis it is imperative that the Fire Department has the most up to date security system that is included with Windows 10.

Included with the purchase of the new Dell Optiplex computers is the Windows 10 professional operating system. Also included is new updated security such as BitLocker and updated version of Windows Defender.

A benefit to the purchase of these computers will not only enhance our security measures, but will also increase performance and productivity due to an improved/updated operating system.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "Vincent Napoli", written over a horizontal line.
