Independent Auditors' Report

To the President and Village Board of Village of Broadview, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Broadview, Illinois, as of and for the year ended April 30, 2020, and the related notes to the financial statements, which collectively comprise the Village of Broadview's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Police Pension Fund and the Firefighters' Pension Fund which represent 52 and 39 percent, 54 and 40 percent, and 29 and 30 percent respectively, of the assets/deferred outflows of resources, net position/fund balances, and revenues/additions, of the aggregate remaining fund information. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Police Pension Fund and the Firefighters' Pension Fund, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control over financial reporting relevant to the Village of Broadview's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Village of Broadview's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Village of Broadview, Illinois, as of April 30, 2020 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note I, the Village of Broadview adopted the provisions of GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*, effective May 1, 2019. Our opinions are not modified with respect to this matter.

As discussed in Note I, the Village of Broadview adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*, effective May 1, 2019. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Broadview's basic financial statements. The supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the report of the other auditors, the supplementary information is fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

Baker Tilly US, LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated April 7, 2022 on our consideration of the Village of Broadview's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village of Broadview's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village of Broadview's internal control over financial reporting and compliance.

Oak Brook, Illinois April 7, 2022

MANAGEMENT'S DISCUSSION AND ANALYSIS April 30, 2020 (Unaudited)

The discussion and analysis of Village of Broadview's (the "Village") financial performance provides an overall review of the Village's financial activities for the year ended April 30, 2020. The management of the Village encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the Village's financial performance. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A").

Financial Highlights - Government-wide Financial Statements

- > The Village of Broadview's net position decreased by \$4.7 million or 66.9% compared to the prior year. The Village ended the fiscal year with net position of (\$11.9) million.
- > During the year, expenses of \$28.8 exceeded revenues of \$24.1 million, resulting in a decrease in net position of \$4.7 million. Net position of business-type activities decreased by \$1.1 million or 10.8%, while net position of governmental activities decreased by \$3.6 million or 20.2%.
- > General revenues accounted for \$14.6 million in revenue or 71% of all governmental revenues. Program specific revenues in the form of charges for services and fees, and grants accounted for \$6.1 million or 29% of total governmental revenues.
- > The governmental activities had \$24.3 million in expenses related to government activities. However, only \$6.1 million of these expenses were offset by program specific charges and grants.
- > At the end of the current fiscal year, unassigned fund balance for the General Fund was in the position of \$2.2 million.
- > The Village's total long-term liabilities increased during the current year to \$64.9 million.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Village's basic financial statements. The basic financial statements are comprised of three components:

- > Government-wide financial statements,
- > Fund financial statements, and
- > Notes to basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS April 30, 2020 (Unaudited)

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the Village's finances, in a manner similar to a private-sector business, and are reported using the accrual basis of accounting and economic resources measurement focus.

The statement of net position presents information on all of the Village's assets/deferred outflows of resources and liabilities/deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be divided into two types of activities: governmental and business-type. Governmental activities present the functions of the Village that are principally supported by taxes and intergovernmental revenues. Business-type activities present the functions that are intended to recover all or a significant portion of their costs through user fees and charges. The Village's governmental activities include functions like general government, public safety, highways, and streets and sanitation. The Village's business-type activities include water and sewerage services.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into three categories: governmental funds, proprietary funds and custodial funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements and are reported using the modified accrual basis of accounting and current financial resources measurement focus. The governmental fund statements provide a detailed short-term view of the Village's general government operations and the basic services it provides. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources; as well as, on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a Village's near-term financing requirements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
April 30, 2020
(Unaudited)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village maintains three major individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Roosevelt Road TIF, and Capital Projects, all of which are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data of each of these non-major governmental funds is provided in the form of combining schedules elsewhere in this report. The Village adopts an annual budget for each of the major funds listed above. A budgetary comparison statement has been provided for each major fund to demonstrate compliance with this budget.

Proprietary funds

Proprietary funds are used to report the same functions presented as business- type activities in the government-wide financial statements. The Village's proprietary fund presents the activities and balances in Water and Sewerage Fund, which is considered to be a major fund, using the accrual basis of accounting and economic resources measurement focus. Proprietary funds provide the same type of information as the government-wide financial statements, but in greater detail. The proprietary funds reflect the private-sector type operation, where the fee for service typically covers all or most of the cost of operation and maintenance including depreciation.

Custodial funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the Village. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Village's own programs. The accounting used for custodial funds is much like that for the government-wide financial statements.

Notes to basic financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Village's Illinois Municipal Retirement Fund Pension, Police Pension Fund, Firefighters' Pension Fund and Other Post-Employment Benefits; as well as, budget to actual comparisons of the funds. Supplementary schedules include combining and individual fund schedules of all non-major funds and Custodial Funds.

Normal Impacts

There are six basic (normal) transactions that will affect the comparability of the Statement of Net Position summary presentation.

Net results of activities – which will impact (increase/decrease) current assets and unrestricted net position.

Borrowing for capital – which will increase current assets and long-term debt.

MANAGEMENT'S DISCUSSION AND ANALYSIS
April 30, 2020
(Unaudited)

<u>Spending borrowed proceeds on new capital</u> – which will: (a) reduce current assets and increase capital assets; and, (b) increase capital assets and long-term debt, which will not change the net position net investment in capital assets.

<u>Spending of non-borrowed current assets on new capital</u> – which will: (a) reduce current assets and increase capital assets; and, (b) will reduce unrestricted net position and increase net investment in capital assets.

<u>Principal payment on debt</u> – which will: (a) reduce current assets and reduce long-term debt; and, (b) reduce unrestricted net position and increase net investment in capital assets.

<u>Reduction of capital assets through depreciation</u> – which will reduce capital assets and net position net investment in capital assets.

Current Year Impacts

As noted earlier, net position and their changes over time serve as a useful indicator of a government's financial position. The Village's total cumulative net position for Governmental Activities resulted in a net \$3,613,628 decrease in net position from a negative \$17,884,425 to a negative \$21,497,753. The net position of Business-Type activities reflects a smaller decrease of \$1,161,922.

Capital assets increased \$3,231,930 mainly due to capital improvements related to the completion of the Village Hall construction project offset by the current year's depreciation.

Total liabilities and the deferred inflows of resources increased mainly due to increase in net pension obligations.

MANAGEMENT'S DISCUSSION AND ANALYSIS
April 30, 2020
(Unaudited)

Normal Impacts

There are eight basic (normal) impacts that will affect the comparability of the revenues and expenses on the Statement of Activities summary presentation.

Revenues

<u>Economic condition</u> – which can reflect a declining, stable or growing economic environment, and has substantial impact on state sales, replacement and hotel/motel tax revenue; as well as, public spending habits for building permits, elective user fees, and volumes of consumption.

<u>Increase/decrease in City approved rates</u> – while certain tax rates are set by statute, the Village has significant authority to impose and periodically increase/decrease rates (water, sales tax, etc.).

<u>Changing patterns in intergovernmental and grant revenue (both recurring and non-recurring)</u> – certain recurring revenues (state shared revenues, etc.) may experience significant changes periodically while non-recurring grants are less predictable and often distorting in their impact on year to year comparisons.

<u>Market impacts on investment income</u> – the Village's investments may be affected by market conditions causing investment income to increase/decrease.

Expenses

<u>Introduction of new programs</u> – within the functional expense categories (general government, public safety, public works, and community development), individual programs may be added or deleted to meet changing community needs.

<u>Change in authorized personnel</u> – changes in service demand may cause the Village to increase/decrease authorized staffing. Staffing costs (salary and related benefits) represent the largest operating cost of the Village.

<u>Salary increases (annual adjustments and merit)</u> – the ability to attract and retain human and intellectual resources requires the Village to strive to approach a competitive salary range position in the marketplace.

<u>Inflation</u> – while overall inflation appears to be reasonably modest, the Village is a major consumer of certain commodities such as supplies, fuel, and parts. Some functions may experience unusual commodity specific increases.

MANAGEMENT'S DISCUSSION AND ANALYSIS April 30, 2020 (Unaudited)

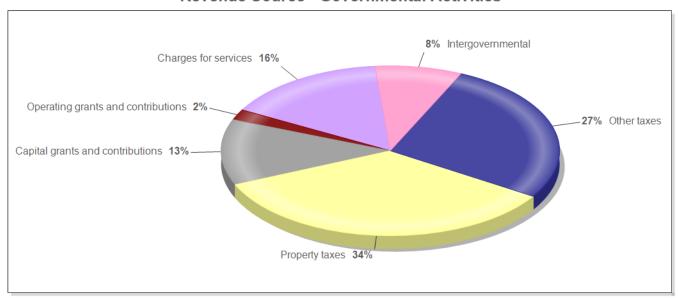

Current Year Impacts

The Governmental Activities revenues increased from the prior year of \$17,843,871 to \$20,759,097, a \$2,915,226 overall increase. A \$2,497,812 increase in capital grants was due primarily to an intergovernmental receipt related to the reimbursement of the new 911 center as well as grants received from other units of government. Please refer to the table on page 9 for additional details of the revenue categories.

Governmental Activities expenses increased by \$4.7 million in the current year as compared to that of the prior year, which was mainly attributable to increase in TIF disbursements due to surpluses as well as impacts due to changes in the Village's actuarial reports.

Governmental Activities

Revenue Source - Governmental Activities

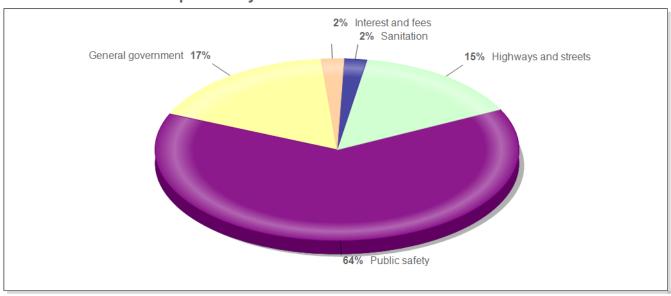

Governmental Activities Revenues

A graphic summary of the FY 2020 Governmental Activities revenues by category for the Village of Broadview is shown above. Property Taxes and Other Taxes accounted for a combined 61% of the Village's revenue sources used to fund governmental activities. Annual receipts from property taxes decreased \$0.2 million, or approximately 3% from the prior year. Current year collections in Other and Intergovernmental Taxes, which include sales taxes, utility taxes, state/local use taxes and cable CATV taxes, reflect a slight increase over the prior year. Total revenues from governmental activities increased \$2.915,226, or 16.3% from the prior year.

Operating revenues of the Village's business type activities (not shown as part of graph) decreased by 6.3% over the prior year due primarily to a slight variations in water consumption and resulting units of billable water sold to consumers. The sale of water (revenues) can be affected by climate, at times, with warmer and drier summers bringing higher demand.

MANAGEMENT'S DISCUSSION AND ANALYSIS April 30, 2020 (Unaudited)

Expenses by Function-Governmental Activities

The chart as shown above graphically depicts the major expense categories of the Village of Broadview. The public safety category that includes the Law Enforcement, Fire and Building Departments is substantially tax supported with program charges covering approximately 13.9% of their expenses. The Sanitation function, on the other hand, is contracted to private vendors and the residents and businesses of the community are billed monthly to cover the cost of collection and disposal. Sufficient revenues were received to cover the full cost of that function.

Operating expenses of the business type activities of the Village that includes the Water and Sewerage Department (not shown as part of graph) increased by \$518,290 or 12.8% from the prior year primarily related to increased water prices and system repairs and related purchases.

Financial Analysis of the Village's Funds

As of the end of the current fiscal year, the Village of Broadview's governmental funds reported a combined (major & non major) ending fund balance of 9,112,406, a decrease of \$2,832,447 over fiscal year 2019 from \$11,944,853.

Other Financing Sources and Uses

Operating transfers from the General Fund occurred in FY20 to the IMRF Fund and the CDBG Fund for the payment of expenditures.

MANAGEMENT'S DISCUSSION AND ANALYSIS April 30, 2020 (Unaudited)

General Fund Budgetary Highlights

The Village's budget for the General Fund anticipated that revenues would exceed expenditures by \$207,712 and that the net impact after other financing sources (uses) would result in an overall net increase of \$37,485 to the fund balance. The actual result was a decrease of \$623,126 resulting in an ending fund balance of \$2,348,401.

Annual revenues were less than the budgeted amount by \$430,966. Property taxes shortfall of \$507,950 was the key driver for the unfavorable to budget.

The General Fund total actual expenditures were less than the budgeted expenditures by \$96,140.

For additional Details, please see the Budgetary Comparison Schedules for the General Fund in this report.

Capital Assets and Debt Administration

Capital assets

The Village of Broadview's investment in capital assets for its governmental and business type activities as of April 30, 2020 was \$34.3 million (net of accumulated depreciation of \$24.8 million). This investment in capital assets includes land, buildings and improvements, distribution systems, vehicles, furniture and equipment and infrastructure. During the current fiscal year, there was controlled activity in the purchasing of capital assets due to limited resources. More detailed information about capital assets can be found in Note III C. of the basic financial statements.

Factors Bearing on the Village's Future

The Village continued its diligent efforts to properly allocate spending, maintain high level of village services for resident and begin strategic planning to create sustainable plans to position the Village for long-term financial stability.

In 2020, the Village experienced the economic effects of the unprecedented global COVID-19 pandemic similar to the rest of the world. The Village suffered significant decreases in revenues in the General Fund. This decline in revenue was offset by operating grants (including the CARES grant from Cook County and FEMA reimbursements for COVID-19 related expenses) and decreasing expenses. The General fund expenses came in under budget despite the additional demand for village services including Public Safety and Public Works.

Economic Development

The Village utilizes a range of economic development programs and tools to promote economic development and business retention. In addition to TIF Districts, the Village pursues financing (e.g., grants) to improve the physical condition and appearance of the major business districts, offers incentives for businesses to replace and/or upgrade their commercial signage, sponsors events that foster development and local tourism, and undertakes outreach to the businesses and developers.

Long-term Financial Planning

The Village looks to conduct strategic planning sessions to identify key issues in an effort to maximize services provided to the Village's residents.

The Sessions are intended to link issues to outcomes by focusing on key goals in governance. They include:

- 1. Maintain Fiscal Responsibility with Sound Budget Practices
- 2. Improve and Maintain Infrastructure and Roads
- 3. Maintain and Communicate Good Government Practices and Services
- 4. Maintain Public Services Through Safe Practices and Proper Equipment
- 5. Attract, Retain and Expand Business

MANAGEMENT'S DISCUSSION AND ANALYSIS April 30, 2020 (Unaudited)

Requests for Information

This financial report is designed to provide the Village's citizens, taxpayers and creditors with a general overview of the Village's finances and to demonstrate the Village's Accountability and Transparency of funds under the Village's control. If you have questions about this report or need additional financial information, contact the Village:

Katrina Thompson, Mayor Village of Broadview 2350 South 25th Avenue Broadview, Illinois 60155

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Broadview, Illinois (the "Village") was incorporated in 1914. The Village is a non home-rule municipality, under the 1970 Illinois Constitution, located in Cook County, Illinois. The Village operates under a President-Trustee form of government and provides the following services as authorized by its charter: public safety (police and fire protection), highways and streets, sanitation (water and sewer), health and social services, public improvements, planning and zoning, and general administrative services.

The accounting policies of the Village of Broadview, Illinois conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The accepted standard-setting body for establishing governmental accounting and financial reporting principles is the Governmental Accounting Standards Board (GASB).

The Village's fiscal year end is April 30 of each year. The accompanying financial statements of the Village are for the fiscal year ended April 30, 2020. The Eisenhower "IKE" Joint Emergency Telephone Board (JETSB) has a fiscal year that follows the calendar year and accompanying financial statements are for fiscal year ended December 31, 2019.

A. REPORTING ENTITY

This report includes all of the funds of the Village. The reporting entity for the Village consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The primary government is financially accountable if (1) it appoints a voting majority of the organization's governing body and it is able to impose its will on that organization, (2) it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, (3) the organization is fiscally dependent on and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. Certain legally separate, tax exempt organizations should also be reported as a component unit if all of the following criteria are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents; (2) the primary government or its component units, is entitled to, or has the ability to access, a majority of the economic resources received or held by the separate organization; and (3) the economic resources received or held by an individual organization that the primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to the primary government.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

Component units are reported using one of three methods: discrete presentation, blended, or fiduciary. Generally, component units should be discretely presented in a separate column in the financial statements. A component unit should be reported as part of the primary government using the blending method if it meets any one of the following criteria: (1) the primary government and the component unit have substantively the same governing body and a financial benefit or burden relationship exists, (2) the primary government and the component unit have substantively the same governing body and management of the primary government has operational responsibility for the component unit, (3) the component unit serves or benefits, exclusively or almost exclusively, the primary government rather than its citizens, or (4) the total debt of the component unit will be paid entirely or almost entirely from resources of the primary government.

Fiduciary Component Units

The Police Pension Employees Retirement System (PPERS) is established for the Village's police employees. PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one pension beneficiary elected by the membership, and two police employees elected by the membership constitute the pension board. The Village and the PPERS participants are obligated to fund all PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many characteristics of a legally separate government, PPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's police employees and because of the fiduciary nature of such activities. PPERS is reported as a pension trust fund and the data for the pension is included in the government's fiduciary fund financial statements. Complete financial statements for the component unit may be obtained at the entity's administrative offices:

Police Pension Board 2350 South 25th Street Broadview, Illinois

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

A. REPORTING ENTITY (cont.)

The Firefighters' Pension Employees Retirement System (FPERS) is established for the Village's firefighters. FPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the Village's President, one pension beneficiary elected by the membership; and two fire employees elected by the membership constitute the pension board. The Village and the FPERS participants are obligated to fund all FPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the Village is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it possesses many of the characteristics of a legally separate government, FPERS is reported as if it were part of the primary government because its sole purpose is to finance and administer the pensions of the Village's firefighters because of the fiduciary nature of such activities. FPERS is reported as a pension trust fund and the data for the pension is included in the government's fiduciary fund financial statements. Separately issued financial statements for the component unit may be obtained at the entity's administrative offices:

Firefighters' Pension Board 2400 South 25th Street Broadview, Illinois

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

In March 2018, the GASB issued statement No. 88 - Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. This Statement defines debt for purposes of disclosure in notes to financial statements and establishes additional financial statement note disclosure requirements related to debt obligations of governments, including direct borrowings and direct placements. This standard was implemented May 1, 2019.

In January 2017, the GASB issued statement No. 84 - Fiduciary Activities. This statement establishes criteria for identifying fiduciary activities of all state and local governments for accounting and financial reporting purposes and how those activities should be reported. This standard was implemented May 1, 2019.

Government-Wide Financial Statements

The statement of net position and statement of activities display information about the reporting government as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Government-Wide Financial Statements (cont.)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. The Village does not allocate indirect expenses to functions in the statement of activities. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported as general revenues. Internally dedicated resources are reported as general revenues rather than as program revenues.

Fund Financial Statements

Financial statements of the Village are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balance, revenues, and expenditures/expenses.

Funds are organized as major funds or nonmajor funds within the governmental and proprietary statements. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Village or meets the following criteria:

- a. Total assets/deferred outflows of resources, liabilities/deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10% of the corresponding total for all funds of that category or type, and
- b. The same element of the individual governmental or enterprise fund that met the 10% test is at least 5% of the corresponding total for all governmental and enterprise funds combined.
- c. In addition, any other governmental or enterprise fund that the Village believes is particularly important to financial statement users may be reported as a major fund.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The Village reports the following major governmental funds:

General Fund - accounts for the Village's primary operating activities. It is used to account for and report all financial resources except those accounted for and reported in another fund.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (cont.)

Fund Financial Statements (cont.)

The Village reports the following major governmental funds: (cont.)

Roosevelt Road TIF Fund - is used to account for incremental real estate tax revenues received from Roosevelt Road Tax Increment Financing District that are to be used for the development of the Redevelopment Project Area at Roosevelt Road.

Capital Projects Fund - is used to account for the resources accumulated and payments made for major capital purchased for governmental operations.

The Village reports the following major enterprise fund:

Water and Sewerage Fund - accounts for operations of the sewerage and collection systems, and the water distribution system.

The Village reports the following nonmajor governmental funds:

Special Revenue Funds - used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes (other than debt service or capital projects).

Garbage
Motor Fuel Tax
Emergency Telephone System
17th Avenue North TIF Redevelopment
19th Avenue TIF Redevelopment

Illinois Municipal Retirement Community Development Block Grant (CDBG) 27th / 23rd Street TIF Redevelopment 22nd and 17th Avenue TIF Redevelopment

Debt Service Fund - used to account for and report financial resources that are restricted, committed, or assigned to expenditure for the payment of general long-term debt principal, interest, and related costs.

Debt Service

In addition, the Village reports the following fund types:

Pension Trust Funds - used to account for and report resources that are required to be held in trust for the members and beneficiaries of defined benefit pension plans.

Police Pension Fund Firefighters' Pension Fund

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements

The government-wide statement of net position and statement of activities are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Property taxes are recognized as revenues in the year for which they are levied. Taxes receivable for the following year are recorded as receivables and deferred inflows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider are met. Special assessments are recorded as revenue when earned. Unbilled receivables are recorded as revenues when services are provided.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the Village considers revenues to be available if they are collected within 60 days of the end of the current fiscal period except for state income taxes. State income taxes received within 120 days will be considered as available. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on long-term debt, claims, judgments, compensated absences, and pension expenditures, which are recorded as a fund liability when expected to be paid with expendable available financial resources.

Property taxes are recorded in the year levied as receivables and deferred inflows. They are recognized as revenues in the succeeding year when services financed by the levy are being provided.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION (cont.)

Fund Financial Statements (cont.)

Intergovernmental aids and grants are recognized as revenues in the period the Village is entitled the resources and the amounts are available. Amounts owed to the Village which are not available are recorded as receivables and unavailable revenues. Amounts received before eligibility requirements (excluding time requirements) are met are recorded as liabilities. Amounts received in advance of meeting time requirements are recorded as deferred inflows.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, public charges for services, special assessments and interest. Other general revenues such as fines and forfeitures, inspection fees, recreation fees, and miscellaneous revenues are recognized when received in cash or when measurable and available under the criteria described above.

Proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewerage Fund are charges to customers for sales and services. Special assessments are recorded as receivables and contribution revenue when levied. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

All Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

1. Deposits and Investments

For purposes of the statement of cash flows, the Village considers all highly liquid investments with an initial maturity of three months or less when acquired to be cash equivalents.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 1. Deposits and Investments (cont.)

Illinois Statutes authorize the Village to make deposits/investments in insured commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, insured credit union shares, money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreement to repurchase these same obligations, repurchase agreements, short-term commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Funds Investment Pool.

Pension funds may also invest in certain non-U.S. obligations, Illinois municipal corporations tax anticipation warrants, veteran's loans, obligations of the State of Illinois and its political subdivisions, and the Illinois insurance company general and separate accounts, mutual funds meeting certain requirements, equity securities, and corporate bonds meeting certain requirements. Pension funds with net assets in excess of \$10,000,000 and an appointed investment advisor may invest an additional portion of its assets in common and preferred stocks and mutual funds, that meet certain requirements. The police pension fund's investment policy allows investments in all of the above listed accounts, but does exclude any repurchase agreements. The firefighters pension fund allows funds to be invested in any type of security authorized by the Illinois Pension Code.

Additional restrictions may arise from local charters, ordinances, resolutions and grant resolutions.

Certain deposits of the Capital Projects Fund are classified as restricted assets because their use is restricted based on debt issuance documents.

The Village and pensions have adopted an investment policy. That policy follows the state statute for allowable investments.

Interest Rate Risk

The Village and pension's formal investment policy states the portfolio should provide a comparable rate of return during a market/economic environment of stable interest rates. Portfolio performance should be compared to benchmarks with similar maturity, liquidity and credit quality as the portfolio. The Village set an investment bank's 1-3 year Governmental Bond Index as its initial benchmark. Unless matched to a specific cash flow, the Village will not directly invest in securities maturing more than two years from the date of purchase. Reserve funds may be invested in securities exceeding two years if the maturity of such investments are made to coincide as nearly as practicable with the expected use of the funds.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 1. Deposits and Investments (cont.)

The pensions' investment policies seek to ensure preservation of capital in the overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. The Police Pension's investment policy limits its exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investment maturities to projected fund liabilities. The Firefighters' Pension's policy does not limit investment maturities except as part of statutory requirements, as a means of managing its exposure to fair value losses arising from increasing interest rates. Over a full business cycle (3-5 years) it is the goal of the Firefighters' Pension to get a return on investments that meets or exceeds the rate of 8%. The portfolio will be managed with an average duration ranging from one to ten years. However, all of the policies require the Village's and pensions' investment portfolios to be sufficiently liquid to enable the village and pensions to meet all operating requirements as they come due.

Credit Risk

State Statutes limit the investments in commercial paper to the top three ratings of two nationally recognized statistical rating organizations (NRSRO's). The Village's and pension's investment policies authorize investments in any type of security allowed for in Illinois statutes regarding the investment of public funds. The Police Pension's investment policy prescribes to the "prudent person" rule, which states, "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the primary objective of safety as well as the secondary objective of the attainment of market rates of return."

Concentration of Credit Risk

The Village's and pensions' investment policies require diversification of the investment portfolio to minimize risk of loss resulting from over-concentration in a particular type of security, risk factor, issuer, or maturity.

The Police Pension does not have a formal written policy with regards to concentration credit risk for investments. At April 30, 2020, the Police Pension Fund does not have any investments over 5% of net plan assets invested in various agency securities. Agency investments represent a large portion of the portfolio; however, the investments are diversified by maturity date and as mentioned earlier are backed by the issuing organization. Although unlike Treasuries, agency securities do not have the "full faith and credit" backing of the U.S. Government, they are considered to have a moral obligation of implicit backing and are supported by Treasury lines of credit and increasingly stringent federal regulation.

The Firefighter's investment policy has a preferred target that not less than 55 percent of its portfolio be in fixed income securities and up to 45 percent may be invested in qualified equity securities. At April 30, 2020, the Firefighters' Pension Fund has over 5% of net assets invested in various agency securities as indicated in the table in Note III A.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 1. Deposits and Investments (cont.)

Custodial Credit Risk - Deposits

The Village's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured with collateralization pledged by the applicable financial institution to the extent of 100% of the value of the deposit. The Police Pension Fund's investment policy requires pledging of collateral with a fair value of 100% of all bank balances in excess of federal depository insurance.

Custodial Credit Risk - Investments

With respect to investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Village's investment policy requires all securities to be held by a third party custodian designated by the Treasurer and evidenced by safekeeping receipts. The Firefighters' Pension's investment policy requires all investments to be registered in the name of the fund, however, it does not specifically address these risks.

Investments are stated at fair value, which is the amount at which an investment could be exchanged in a current transaction between willing parties. Fair values are based on quoted market prices. No investments are reported at amortized cost. Adjustments necessary to record investments at fair value are recorded in the operating statement as increases or decreases in investment income. Investment income on commingled investments of municipal accounting funds is allocated based on average balances. The difference between the bank statement balance and carrying value is due to outstanding checks and/or deposits in transit.

Illinois Funds is an investment pool managed by the State of Illinois, Office of the Treasurer, which allows governments within the State to pool their funds for investment purposes. Illinois Funds is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Illinois Funds are valued at Illinois Fund's share price, the price for which the investments could be sold.

Illinois Metropolitan Investment Fund (IMET) is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an investment company. Investments in IMET are valued at IMET's share price, the price for which the investment could be sold. Investment in IMET's 1-3 year fund may be redeemed with 5 business days' notice.

See Note III. A. for further information.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)

2. Receivables

Property taxes for levy year 2019 attaches as an enforceable lien on January 1, 2019, on property values assessed as of the same date. Taxes are levied by December following the lien date (by passage of a Tax Levy Ordinance). The 2020 tax levy, which attached as an enforceable lien on the property as of January 1, 2020, has not been recorded as a receivable as of April 30, 2020, as the tax has not yet been levied by the Village and will not be levied until December 2020, and therefore, the levy is not measurable at April 30, 2020.

Tax bills for levy year 2019 are prepared by Cook County and issued on or about February 1, 2020 and July 1, 2020, and are payable in two installments, on or about March 1, 2020 and August 1, 2020 or within 30 days of the tax bills being issued.

The county collects such taxes and remits them periodically. The 2019 property tax levy is recognized as a receivable and deferred inflows in fiscal 2020, net the allowance for uncollectible. As the taxes become available to finance current expenditures, they are recognized as revenues. At April 30, 2020, the property taxes receivable and related deferred inflows consisted of the estimated amount collectible from the 2019 levy.

All trade and property tax receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 180 days (\$36,404) comprise the trade accounts receivable allowance for uncollectibles. The property tax receivable allowance is equal to 1 percent (\$81,068) of outstanding property taxes at April 30, 2020.

During the course of operations, transactions occur between individual funds that may result in amounts owed between funds. Short-term interfund loans are reported as "due to and from other funds." Long-term interfund loans (noncurrent portion) are reported as "advances from and to other funds." Interfund receivables and payables between funds within governmental activities are eliminated in the statement of net position. Any residual balances outstanding between the governmental activities and business-type activities are reported in the governmental-wide financial statements as internal balances.

In the governmental fund financial statements, advances to other funds are offset equally by a nonspendable fund balance account which indicates that they do not constitute expendable available financial resources and, therefore, are not available for appropriation or by a restricted fund balance account, if the funds will ultimately be restricted when the advance is repaid.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)

4. Restricted Assets

Mandatory segregations of assets are presented as restricted assets. Such segregations are required by bond agreements and other external parties. Current liabilities payable from these restricted assets are so classified. The excess of restricted assets over current liabilities payable from restricted assets will be used first for retirement of related long-term debt. The remainder, if generated from earnings, is shown as restricted net position.

5. Capital Assets

Government-Wide Statements

Capital assets, which include property, plant and equipment, are reported in the government-wide financial statements. Capital assets are defined by the government as assets with an initial cost of more than \$10,000 for general capital assets and \$10,000 for infrastructure assets, and an estimated useful life in excess of 1 year. All capital assets are valued at historical cost, or estimated historical cost if actual amounts are unavailable. Donated capital assets are recorded at their estimated fair value at the date of donation.

Additions to and replacements of capital assets of business-type activities are recorded at original cost, which includes material, labor, overhead, and an allowance for the cost of funds used during construction when significant. For tax-exempt debt, the amount of interest capitalized equals the interest expense incurred during construction netted against any interest revenue from temporary investment of borrowed fund proceeds. No interest was capitalized during the current year. The cost of renewals and betterments relating to retirement units is added to plant accounts. The cost of property replaced, retired or otherwise disposed of, is deducted from plant accounts and, generally, together with removal costs less salvage, is charged to accumulated depreciation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method. The range of estimated useful lives by type of asset is as follows:

Buildings	50	Years
Land Improvements	20	Years
Machinery and Equipment	5-20	Years
Infrastructure	20-50	Years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same way as in the government-wide statements.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)

6. Other Assets

The Village's property held for resale includes land that is being held for sale for future development of the Village. The Village reevaluates the value of the property held for resale on an annual basis. Based on current market conditions, the Village determined that no adjustment to the value was necessary as of April 30, 2020.

7. Deferred Outflows of Resources

A deferred outflow of resources represents a consumption of net position/fund balance that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that future time.

8. Long-Term Obligations

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term obligations consist primarily of notes and bonds payable and accrued compensated absences.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The face value of debts (plus any premiums) are reported as other financing sources and payments of principal and interest are reported as expenditures. The accounting in proprietary funds is the same as it is in the government-wide statements.

For the government-wide statements and proprietary fund statements, bond premiums and discounts are amortized over the life of the issue using the effective interest method. The balance at year end is shown as an increase or decrease in the liability section of the statement of net position.

9. Deferred Inflows of Resources

A deferred inflow of resources represents an acquisition of net position/fund balance that applies to a future period and therefore will not be recognized as an inflow of resources (revenue) until that future time.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 10. Equity Classifications

Government-Wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances (excluding unspent debt proceeds) of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position Consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net positions that do not meet the definitions of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Village's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Statements

Governmental fund balances are displayed as follows:

- a. Nonspendable Includes fund balance amounts that cannot be spent either because they are not in spendable form or because legal or contractual requirements require them to be maintained intact.
- b. Restricted Consists of fund balances with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.
- c. Committed Includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision making authority. Fund balance amounts are committed through a formal action (ordinance) of the Village Board. This formal action must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Village Board that originally created the commitment.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

- D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (cont.)
 - 10. Equity Classifications (cont.)

Fund Statements (cont.)

- d. Assigned Includes spendable fund balance amounts that are intended to be used for specific purposes that do not meet the criteria to be classified as restricted or committed. Fund balance may be assigned through the following; 1) Formal action of the Village Board 2) All remaining positive spendable amounts in governmental funds, other than the general fund, that are neither restricted nor committed. Assignments may take place after the end of the reporting period.
- e. Unassigned Includes residual positive fund balance within the general fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those purposes.

Proprietary fund equity is classified the same as in the government-wide statements.

The Village considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents / contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the Village would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. EXCESS EXPENDITURES OVER BUDGET

Funds	Budgeted Expenditures		Actual Expenditures	Excess Expenditures Over Budget		
Garbage Emergency Telephone System 17th Avenue North TIF Redevelopment 27th/23rd TIF Redevelopment Debt Service	\$ 569,000 - - 25,250 1,512,720	\$	678,108 86,485 17,301 231,739 2,046,864	\$ 109,108 86,485 17,301 206,489 534,144		

The Village controls expenditures at the department level. Some individual departments experienced expenditures which exceeded appropriations. The detail of those items can be found in the Village's yearend budget to actual report.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE II - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (cont.)

B. DEFICIT BALANCES

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year end.

As of April 30, 2020, the following individual funds held a deficit balance:

Fund		Amount	Reason				
22nd & 17th Ave TIF Redevelopment	\$	732	Operating expenditures exceeded available revenues or financing				
17th Avenue TIF Redevelopment		73,075	Current and prior operating expenditures exceeded available revenues or financing				

TIF district deficits are anticipated to be funded with future incremental taxes levied over the life of the districts, which is 27 years for the districts created before October 1, 1995, and 23 years for districts created thereafter through September 30, 2004. Beginning October 1, 2004, the life of new districts varies by type of district (20-27 years) and may be extended in some cases.

C. LIMITATIONS ON THE VILLAGE'S TAX LEVY

Tax rate ceilings are established by Illinois state law under the Property Tax Extension Limitation Act (PTELA) and are subject to change only by the approval of the voters of the Village. The tax rate ceilings are applied at the fund level.

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lessor of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the Village's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation. The CPI rates applicable to the 2019 and 2018 tax levies were 1.9% and 2.1%, respectively.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE III - DETAILED NOTES ON ALL FUNDS

A. DEPOSITS AND INVESTMENTS

The Village's deposits and investments at year end were comprised of the following:

	Carrying Value	Statement Balances	Associated Risks

Pension - State and local obligations		2,640,399
Pension - U.S. Government and agency securities		14,920,529
Pension - Mutual funds		28,730,650
Pension - Corporate notes		2,758,442
Custodial - Cash	-	243,899
Total Deposits and Investments	\$	63,546,238

Deposits in each local and area bank are insured by the FDIC in the amount of \$250,000 for time and savings accounts (including NOW accounts) and \$250,000 for demand deposit accounts (interest-bearing and noninterest-bearing). In addition, if deposits are held in an institution outside of the state in which the government is located, insured amounts are further limited to a total of \$250,000 for the combined amount of all deposit accounts.

The Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The Village used the market valuation method for recurring fair value measurements. As of April 30, 2020, the Village's investments were measured using valuation inputs as follows:

Firefighters' Pension Fund:

	April 30, 2020	
Investment Type	Level 1 Level 2 Level 3	Total
U.S. Treasuries U.S. Agencies Corporate Bonds State and Local Obligations Mutual Funds	\$ 881,047 \$ - \$ - - 4,907,389 - - 1,146,123 - - 951,894 - 	\$ 881,047 4,907,389 1,146,123 951,894 12,807,851

Custodial Credit Risk

Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the Village's deposits may not be returned to the Village.

As of April 30, 2020, \$10,686,945 of the Village's total bank balances were exposed to custodial credit risk as follows:

Uninsured and collateral held by the pledging financial institution's trust department or agent not in the Village's name \$\frac{10,686,945}{10,686,945}\$

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE III - DETAILED NOTES ON ALL FUNDS (cont.)

A. DEPOSITS AND INVESTMENTS (cont.)

Credit Risk (cont.)

As of April 30, 2020, the Village's investments were rated as follows:

Investment Type	Standard & Poors	Moody's Investors Services
Federal Farm Credit Bank Federal Home Loan Bank Corporate Bonds Municipal Bonds Illinois Funds Illinois Metropolitan Investment Fund Federal Home Loan Mortgage Corporation Federal National Mortgage Association Tennessee Valley Authority Strips	AA AA BBB+ to AAA AA- to AA+ AAAm N/R N/R N/R N/R	Aaa Aaa to Aaa Aa3 to Aa1 N/R Aaa N/R N/R N/R

N/R - Not Rated

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

At April 30, 2020, the Firefighters' Pension Fund investment portfolio was concentrated as follows:

Issuer	Investment Type	Percentage of Net Position
U.S. Government Agency U.S. Government Agency	Federal Farm Credit Bank Federal Home Loan Bank	13.65% 7.25%

All of the receivables on the balance sheet are expected to be collected within one year.

Governmental funds report *unavailable or unearned revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Property taxes levied for the subsequent year are not earned and cannot be used to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *unavailable revenue* and *unearned revenue* reported in the governmental funds were as follows:

	Unearned	Unavailable		
Property taxes receivable for subsequent year Sales taxes receivable Local use tax receivable Excise tax receivable Utility tax receivable State income tax receivable	\$ 4,297,970 - - - - - -	\$ - 581,652 51,634 37,336 22,650 54,981

Total - Fund Financial Statements			533,390	
Less: Fund eliminations		_	(533,390)	
Total Transfers - Go of Activities	vernment-Wide Statement	\$_		

Generally, transfers are used to (1) move revenues from the fund that collects them to the fund that the budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

For the statement of activities, interfund transfers within the governmental activities or business-type activities are netted and eliminated.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

The OPEB liabilities and net pension liabilities are paid out of the fund that has the associated salary.

The Village is subject to the Illinois Municipal Code, which limits the amount of certain indebtedness to 8.625% of the most recent available equalized assessed valuation of the Village. As of April 30, 2020, the statutory debt limit for the Village was \$21,188,722, providing a debt margin of \$18,308,722.

General Obligation Debt

All general obligation notes and bonds payable are backed by the full faith and credit of the Village. Notes and bonds in the governmental funds will be retired by future property tax levies or tax increments accumulated by the debt service fund.

F. IEPA BROWNSFIELD REVOLVING LOAN

In 2007, the Village entered into an agreement with the IEPA to receive a \$300,000 revolving loan to fund cleanup activities at the former Broadview Quick Wash site.

According to the agreement, the Village has two years to use the funds.

There are a number of provisions and covenants contained in the loan agreement. If the site is sold, leased, traded, or developed within 15 years of the agreement (until 2022), the Village must repay between 0% and 80% of the proceeds. Otherwise, the Village has no obligation to repay the loan. The Village is in compliance with all significant provisions and covenants. However, as a conservative measure, the Village has recorded a liability on its Statement of Net Position for 80% of the proceeds received. This obligation will be repaid from the Roosevelt Road TIF Fund.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION

A. EMPLOYEES' RETIREMENT SYSTEM

The Village contributes to three defined benefit pension plan, the Illinois Municipal Retirement Fund (IMRF), an agent-multiple-employer public employee retirement system; the Police Pension Plan which is a single-employer pension plan; and the Firefighters' Pension Plan which is a single-employer pension plan. The benefits, benefits levels, employee contributions and employer contributions for the plans are governed by Illinois Compiled Statutes and can only be amended by the Illinois General Assembly. The Police Pension Plan and the Firefighters' Pension Plan issue separate reports on the pension plans. IMRF does issue a publicly available report that includes financial statements and supplementary information for the plan as a whole, but not for individual employers. That report can be obtained from IMRF, 2211 York Road, Suite 500, Oak Brook, Illinois 60523.

Illinois Municipal Retirement Fund

Plan description. All employees (other than those covered by the Police and Firefighters' Pension plans) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF has a two tier plan. Members who first participated in IMRF or an Illinois Reciprocal System prior to January 1, 2011 participate in Tier 1. All other members participate in Tier 2. For Tier 1 participants, pension benefits vest after 8 years of service. Participating members who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with 8 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1-2/3% of their final rate of earnings (average of the highest 48 consecutive months' earnings during the last 10 years) for credited service up to 15 years and 3% for each year thereafter.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 participants, pension benefits vest after 10 years of service. Participating members who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with 10 years of service are entitled to an annual retirement benefit, payable monthly for life in an amount equal to 1-2/3% of their final rate of earnings for the first 15 years of service credit, plus 2% for each year of service after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased ever year after retirement, upon reaching age 67, by the lesser of 3% of the original pension amount or 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan membership. At December 31, 2019, the measurement date, membership in the plan was as follows:

Retirees and beneficiaries	43
Inactive, non-retired members	21
Active members	33
Total	97

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Contributions. As set by statute, Village employees participating in IMRF are required to contribute 4.50% of their annual covered salary. The statute requires the Village to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Village's actuarially determined contribution rate for calendar year 2019 was 2.46% of annual covered payroll for IMRF. The Village also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of December 31, 2019, and the total pension liability used to calculate the net pension liability/(asset) was determined by an actuarial valuation as of that date.

Summary of Significant Accounting Policies. For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The total pension liability for IMRF was determined by actuarial valuations performed as of December 31, 2019 using the following actuarial methods and assumptions:

Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value
Actuarial assumptions	
Investment Rate of Return	7.25%
Price Inflation	2.50%
Salary increases	3.35% to 14.25%,
	including inflation

Mortality. For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using an asset allocation study in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce long-term expected rate of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

	Projected Re	eturns/Risks	
	Target	One Year	Ten Year
Asset Class	Allocation	Arithmetic	Geometric
Equities	37.00%	7.05%	5.75%
International equities	18.00%	8.10%	6.50%
Fixed income	28.00%	3.70%	3.25%
Real estate	9.00%	6.35%	5.20%
Alternatives	7.00%		
Private equity		11.30%	7.60%
Hedge funds		N/A	N/A
Commodities		4.65%	3.60%
Cash equivalents	1.00%	1.85%	1.85%

Discount rate. The discount rate used to measure the total pension liability for IMRF was 7.25%. The discount rate calculated using the December 31, 2018 measurement date was 7.25%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between actuarially determined contribution rate and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments of 7.25% was applied to all periods of projected benefits to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents net pension liability/(asset) of the Village calculated using the discount rate of 7.25% as well as what the net pension liability/(asset) would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.25%) or 1 percentage point higher (8.25%) than the current rate:

	Current 1% Decrease Discount Rate			_	1% Increase		
Total pension liability Plan fiduciary net pension Net pension liability/(asset)	\$ 	14,170,365 13,647,116 523,249	\$ 	12,631,064 13,647,116 (1,016,052)	\$	11,378,613 13,647,116 (2,268,503)

Pension expense/(income) and deferred outflows of resources and deferred inflows of resources related to pensions. For the year ended April 30, 2020, the Village recognized pension income of \$(46,003). The Village reported deferred outflows and inflows of resources related to pension from the following sources:

	C	Deferred outflows of Resources		Deferred Inflows of Resources
Difference between expected and actual experience Assumption changes Net difference between projected and actual earnings on pension	\$	68,702 158,637	\$	123,270 78,677
plan investments Contributions subsequent to the measurement date		- 46,363	_	605,379
Total	\$	273,702	\$	807,326

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

The amount reported as deferred outflows resulting from contributions subsequent to the measurement date in the above table will be recognized as a reduction in the net pension liability/(asset) for the year ending . The remaining amounts reported as deferred outflows and inflows of resources related to pensions (\$(579,987)) will be recognized in pension expense as follows:

Year Ending December 31,	Amount
2020	\$ (282,313)
2021	(92,330)
2022	71,266
2023	(276,610)
Total	\$ <u>(579,987</u>)

Police Pension

Plan description. Police sworn personnel are covered by the Police Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund.

As provided for in the Illinois Compiled Statutes, the Plan provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Police Pension Fund as provided for in Illinois Compiled Statutes.

Tier 1 - Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one half of the salary attached to the rank on the last day of service, or for one year prior to the last day, whichever is greater. The pension shall be increased by 2.5% of such salary for each additional year of service over 20 years up to 30 years to a maximum of 75% of such salary. Employees with at least 8 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

Tier 2 - Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a police officer shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one half the annual unadjusted percentage increase in the CPI, whichever is less.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Police Pension (cont.)

Plan membership. At April 30, 2020, the Police Pension membership consisted of:

Retirees and beneficiaries	34
Inactive, non-retired members	1
Active members	30
Total	65

Contributions. Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011 the Village's contributions must accumulate to the point where the past service cost for the Police Pension Plan is 90% funded by the year 2040. The Village's actuarially determined contribution rate for the fiscal year ending April 30, 2020 was 43.88% of annual covered payroll.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of April 30, 2020, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

Summary of Significant Accounting Policies. The financial statements of the Police Pension Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The Village's contributions are recognized when due and a formal commitment to provide the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximated fair value. Investments that do not have an established market are reported at estimated fair values.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Police Pension (cont.)

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed as of April 30, 2020 using the following actuarial methods and assumptions:

Actuarial cost method	Entry Age Normal
Asset valuation method	Market Value
Actuarial assumptions	
Interest rate	7.00%
Inflation	2.25%
Projected salary increases	3.25% - 27.00%
Cost-of-living adjustments	4.50%

Mortality rates were based on the PubS-2010(A) Study improved to 2017 using MP-2019 Improvement Rate or applied on a fully generational basis for plan status, as appropriate.

Long-term expected real rate of return. The long-term expected rate of return on the Police Pension Plan's investments was determined using a building block method. The best estimate for future real rates of return are developed for each of the major asset classes. Future real rates of return are weighted based on the target allocation within the Plan investment policy. Expectation inflation is added back in. Adjustment is made to reflect geometric returns. Best estimated or arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of April 30, 2020 are as follows:

Asset Class	Target	Expected Real Rate of Return
Fixed income	45.00%	1.30%
Large Cap Domestic Equity	38.50%	6.30%
Small Cap Domestic Equity	11.00%	8.10%
International equities	5.50%	6.80%

Illinois Compiled Statutes (ILCS) limit the Plan's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Police Pension (cont.)

Discount rate. The discount rate used to measure the total pension liability for the Police Pension Plan was 7.00%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the Village calculated using the discount rate of 7.00% as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (6.00%) or 1 percentage point higher (8.00%) than the current rate:

	Current						
	1% Decrease			iscount Rate		1% Increase	
Total pension liability Plan fiduciary net position	\$	53,734,791 28,711,476	\$	47,153,356 28,711,476	\$_	41,793,659 28,711,476

2023 2024	543,737 581,891 529,532
2025	177,975
Thereafter Total	<u>37,374</u> \$ 2,318,747

Firefighters' Pension

Plan description. Fire sworn personnel are covered by the Firefighters' Pension Plan, which is a defined benefit single-employer pension plan. Although this is a single employer pension plan, the defined benefits and employee and employer contribution levels are governed by Illinois State Statutes (Chapter 40 ILCS 5/3) and may be amended only by the Illinois legislature. The Village accounts for the plan as a pension trust fund.

As provided for in the Illinois Compiled Statutes, the Firefighters' Pension Plan provides retirement benefits as well as death and disability benefits to employees grouped into two tiers. Tier 1 is for employees hired prior to January 1, 2011 and Tier 2 is for employees hired after that date. The following is a summary of the Firefighters' Pension Plan as provided for in Illinois Compiled Statutes.

Tier 1 - Covered employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive a monthly retirement benefit of one half of the monthly salary attached to the rank held in the fire service at the date of retirement. The monthly pension shall be increased by one twelfth of 2.5% of such monthly salary for each additional month over 20 years of service through 30 years of service to a maximum of 75% of such monthly salary. Employees with at least 10 years but less than 20 years of credited service may retire at or after age 60 and receive a reduced retirement benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and paid upon reaching at least the age 55, by 3% of the original pension and 3% compounded annually thereafter.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Firefighters' Pension (cont.)

Tier 2 - Covered employees attaining the age of 55 or more with 10 or more years of creditable service are entitled to receive a monthly pension of 2.5% of the final average salary for each year of creditable service. The salary is initially capped at \$106,800 but increases annually thereafter and is limited to 75% of final average salary. Employees with 10 or more years of creditable service may retire at or after age 50 and receive a reduced retirement benefit. The monthly pension of a firefighter shall be increased annually on the January 1 occurring either on or after the attainment of age 60 or the first anniversary of the pension start date, whichever is later. Each annual increase shall be calculated at 3% or one-half the annual unadjusted percentage increase in the CPI, whichever is less.

Plan membership. At April 30, 2020, the Firefighters' Pension Plan membership consisted of:

Retirees and beneficiaries	39
Inactive, non-retired members	3
Active members	27
Total	69

Contributions. Participants contribute a fixed percentage of their base salary to the plans. At April 30, 2020, the contribution percentage was 9.455%. If a participant leaves covered employment with less than 20 years of service, accumulated participant contributions may be refunded without accumulated interest. The Village is required to contribute the remaining amounts necessary to finance the plans as actuarially determined by an enrolled actuary. Effective January 1, 2011 the Village's contributions must accumulate to the point where the past service cost for the Firefighters' Pension Plan is 90% funded by the year 2040. The Village's actuarially determined contribution rate for the fiscal year ending April 30, 2020 was 81.90% of annual covered payroll.

Net pension liability/(asset). The net pension liability/(asset) was measured as of April 30, 2020, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

Summary of significant accounting policies. The financial statements of the Firefighters' Pension Plan are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The Village's contributions are recognized when due and a formal commitment to provide the contributions are made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Plan investments are reported at fair value. Short-term investments are reported at cost, which approximated fair value. Investments that do not have an established market are reported at estimated fair values.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Firefighters' Pension (cont.)

Actuarial assumptions. The total pension liability was determined by an actuarial valuation performed as of April 30, 2020 using the following actuarial methods and assumptions:

Actuarial cost method	Entry age norma		
Asset valuation method	Market value		
Actuarial assumptions			
Interest rate	6.75%		
Inflation	2.25%		
Projected salary increases	3.75% - 11.15%		
Cost-of-living adjustments	4.50%		

Mortality rates were based on the PubS-2010(A) Study improved to 2017 using MP-2019 Improvement Rate or applied on a fully generational basis for plan status, as appropriate.

Long-term expected real rate of return. The long-term expected rate of return on the Firefighters' Pension Plan's investments was determined using a building block method. The best estimate for future real rates of return are developed for each of the major asset classes. Future real rates of return are weighted based on the target allocation within the Plan investment policy. Expectation inflation is added back in. Adjustment is made to reflect geometric returns. Best estimated or arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of April 30, 2020 are as follows:

Asset Class	Target	Expected Real Rate of Return		
Fixed income	40.00%	1.30%		
Large cap domestic equity	42.00%	6.30%		
Small cap domestic equity	12.00%	8.10%		
International equities	6.00%	6.80%		

Illinois Compiled Statutes (ILCS) limit the Plan's investments in equities, mutual funds and variable annuities to 65%. Securities in any one company should not exceed 5% of the total fund.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Firefighters' Pension (cont.)

Discount rate. The discount rate used to measure the total pension liability for the Firefighters' Pension Plan was 6.75%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that Village contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount rate sensitivity. The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the pension liability of the Village calculated using the discount rate of 6.75% as well as what the net pension liability would be if it were to be calculated using a discount rate that is 1 percentage point lower (5.75%) or 1 percentage point higher (7.75%) than the current rate:

	_1	% Decrease	D	iscount Rate	_1	% Increase
Total pension liability Plan fiduciary net position	\$	51,257,375 21,218,529	\$	45,670,228 21,218,529	\$	41,031,879 21,218,529
Net pension liability	\$	30,038,846	\$_	24,451,699	\$_	19,813,350

Changes in net pension liability/(asset). The Village's changes in net pension liability/(asset) for the calendar year ended April 30, 2020 was as follows:

	Increase (Decrease)					
	Total Pension P		lan Fiduciary	Net Pension		
	Liability 1		Net Position		ability/Asset

NOTE IV - OTHER INFORMATION (cont.)

A. EMPLOYEES' RETIREMENT SYSTEM (cont.)

Firefighters' Pension (cont.)

Pension expense and deferred outflows of resources and deferred inflows of resources related to pensions. For the year ended April 30, 2020, the Village recognized pension expense of \$3,028,547. The Village reported deferred outflows and inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources
Difference between expected and actual experience Assumption changes Net difference between projected and actual earnings on pension	\$ 142,199 553,979	\$	561,763 120,101
plan investments	 608,969	-	
Total	\$ 1,305,147	\$	681,864

The amounts reported as deferred outflows and inflows of resources related to pensions (\$623,283) will be recognized in pension expense as follows:

Year Ending April 30,	Amount
2021	\$ 338,600
2022	115,630
2023	107,398
2024	142,206
2025	(73,566)
Thereafter	(6,985)
Total	\$ <u>623,283</u>

B. RISK MANAGEMENT

The Village is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. All of these risks are covered through the purchase of commercial insurance, with minimal deductibles. Settled claims have not exceeded the commercial coverage in any of the past three years. There were no significant reductions in coverage compared to the prior year.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

B. RISK MANAGEMENT (cont.)

Public Entity Risk Pool

IMLRA

The Village participates in the Illinois Municipal League Risk Management Association (IMLRA). IMLRA is an organization of municipalities and special districts in Northeastern Illinois, which has formed an association under the Illinois Intergovernmental Cooperation's Statute to pool its risk management needs. The agency administers a mix of self-insurance and commercial insurance coverages; property/casualty and workers' compensation claim administration/litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

C. COMMITMENTS AND CONTINGENCIES

Claims and judgments are recorded as liabilities if all the conditions of Governmental Accounting Standards Board pronouncements are met. The liability and expenditure for claims and judgments are only reported in governmental funds if it has matured. Claims and judgments are recorded in the government-wide statements and proprietary funds as expenses when the related liabilities are incurred.

From time to time, the Village is party to various pending claims and legal proceedings. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the Village attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Village's financial position or results of operations.

The Village has active construction projects as of April 30, 2020. Work that has been completed on these projects but not yet paid for (including contract retainages) is reflected as accounts payable and expenditures.

D. OTHER POSTEMPLOYMENT BENEFITS

Plan description. The Village's single-employer defined benefit OPEB plan, the Retiree Health Insurance Plan, provides health insurance plan coverage to eligible retirees and their spouses. The plan is funded on a pay-as-you-go basis and no assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement No. 75.

Contributions and benefits provided. The Village provides continued health insurance coverage at the active employee rate to all eligible employees in accordance with ILCS, which creates an OPEB for retirees, commonly referred to as an implicity rate subsidy. To be eligible for benefits, an employee must qualify for retirement under the Village's retirement plans. The Village pays \$267 per retiree who stays on the Village insurance for life and the amount is fixed for future years. The retiree pays the difference in coverage premiums. Retired employees are required to pay 100% of the premiums for such coverage. Additionally, the Village pays 100% of the insurance cost for disabled police and fire employees.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

D. OTHER POSTEMPLOYMENT BENEFITS (cont.)

Plan membership. At April 30, 2020, membership consisted of:

Retired plan members	13
Active employees not yet eligible Active employees fully eligible	
Total	92

Total OPEB Liability. At April 30, 2020, the Village's total OPEB liability of \$6,710,144 was measured as of April 30, 2020, and was determined by an actuarial valuation as of May 1, 2020.

Actuarial assumptions and other inputs. The total OPEB liability in the April 30, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Discount rate 2.56%

30% participation with 50% electing spouse

Health care participation rate coverage

Initial rate of 7.70%, grading down to the ultimate

Healthcare cost trend rates trend rate of 5.00%

Retirees' share of benefit-related costs 100%

The discount rate was based on the 2020 Bond Buyer 20-Bond Index, as published by the Federal Reserve.

For IMRF employees, mortality rates were based on the RP-2014 with Blue Collar Adjustment which was improved generationally using MP-2016 improvement rates. For Police and Fire employees, mortality rates were based on the PubS-2010(A) study improved to 2017 using M-2019 Improvement Rates for active employees and based on the L&A Assumption Study for Police and Firefighters 2020 improved generationally using MP-2019 Improvement Rates for retirees. Police and Fire disabled employees and spouses have mortality rates based on the PubS-2010 study for disabled participants and the PubS-2010(A) study for contingent survivors, respectively, and both rates were generationally improved using MP-2019 Improvement Rates.

The actuarial assumptions used in the April 30, 2020 valuation were based on the results of an actuarial experience study conducted by the independent actuary.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. For the year ended April 30, 2020, the Village recognized OPEB expense of \$2,998,718.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

E. SUBSEQUENT EVENTS

On Thursday, February 25, 2021 the Village issued direct placement general obligation limited tax bonds in the amount of \$1,050,000 with an interest rate of 0.85%. This amount will be used for debt service payments and capital projects.

F. TAX INCREMENT FINANCING DISTRICT

The Village of Broadview has established several Tax Increment Redevelopment Project Areas (RPA's) to encourage redevelopment of certain sites for more market oriented commercial uses of the properties that will enhance their value and improve their contributions to the Village and its surrounding areas. As part of the redevelopment plans, the Village has made significant improvements to utilities, public parking, intersections, and traffic signalization, streets and landscaping. The redevelopment plans also include site preparation, land acquisition and assembly, and demolition/clearance.

Construction and development in the RPA's were the responsibility of developers and are substantially complete. To entice development of the areas, the Village created tax increment financing (TIF) districts to finance public improvements made within the RPA's.

Several funds have been established to record the revenues generated in the RPA's that relate directly to servicing the debt issued to make public improvements in the RPA's.

NOTES TO FINANCIAL STATEMENTS As of and for the Year Ended April 30, 2020

NOTE IV - OTHER INFORMATION (cont.)

G. Effect of New Accounting Standards on Current-Period Financial Statements

The Governmental Accounting Standards Board (GASB) has approved the following:

- > Statement No. 83, Certain Asset Retirement Obligations
- > Statement No. 87, Leases
- > Statement No. 89, Accounting for Interest Costs Incurred before the End of a Construction Period
- > Statement No. 90, *Majority Equity Interests*
- > Statement No. 91, Conduit Debt Obligations
- > Statement No. 92, *Omnibus 2020*
- > Statement No. 93, Replacement of Interbank Offered Rates
- > Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*
- > Statement No. 96, Subscription-Based Information Technology Arrangements
- > Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans-an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32

The certain statements listed above through Statement No. 93 had their required effective dates postponed by one year with the issuance of Statement No. 95, *Postponement of Effective Dates of Certain Authoritative Guidance*, with the exception of Statement No. 87, which was postponed by one and a half years.

When they become effective, application of these standards may restate portions of these financial statements.

Covered payroll	\$ 1,559,023	\$	1,715,493	\$ 1,611,295	\$ 1,569,711	\$ 1,562,744
Contributions as a percentage of covered payroll	2.46%		6.67%	6.21%	6.73%	8.13%

Notes to Schedule:

The Village implemented GASB Statement No. 68 in fiscal year 2016. Information prior to fiscal year 2016 is not available.

Valuation date:

Actuarially determined contribution rates are calculated as of December 31 each year, which are 4 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Aggregate entry age normal
Amortization method Level percentage of payroll, closed

Remaining amortization period 24 years

Asset valuation method 5-Year Smoothed Market, 20% corridor

Inflation 2.50% - approximate

Salary increases 3.35% to 14.25% including inflation

Investment rate of return 7.50%

Retirement Age Experience-based table of rates that are specific to the type of eligibility condition Mortality RP-2014 Employee Mortality Table, adjusted to match current IMRF experience

Other information:

There were no benefit changes during the year.

Notes to Schedule:

The Village implemented GASB Statement No. 75 in fiscal year 2018. Information prior to fiscal year 2018 is not available.

A Schedule of Contributions is not presented as the plan is a pay-as-you-go and, as such, no actuarially determined contribution is determined.

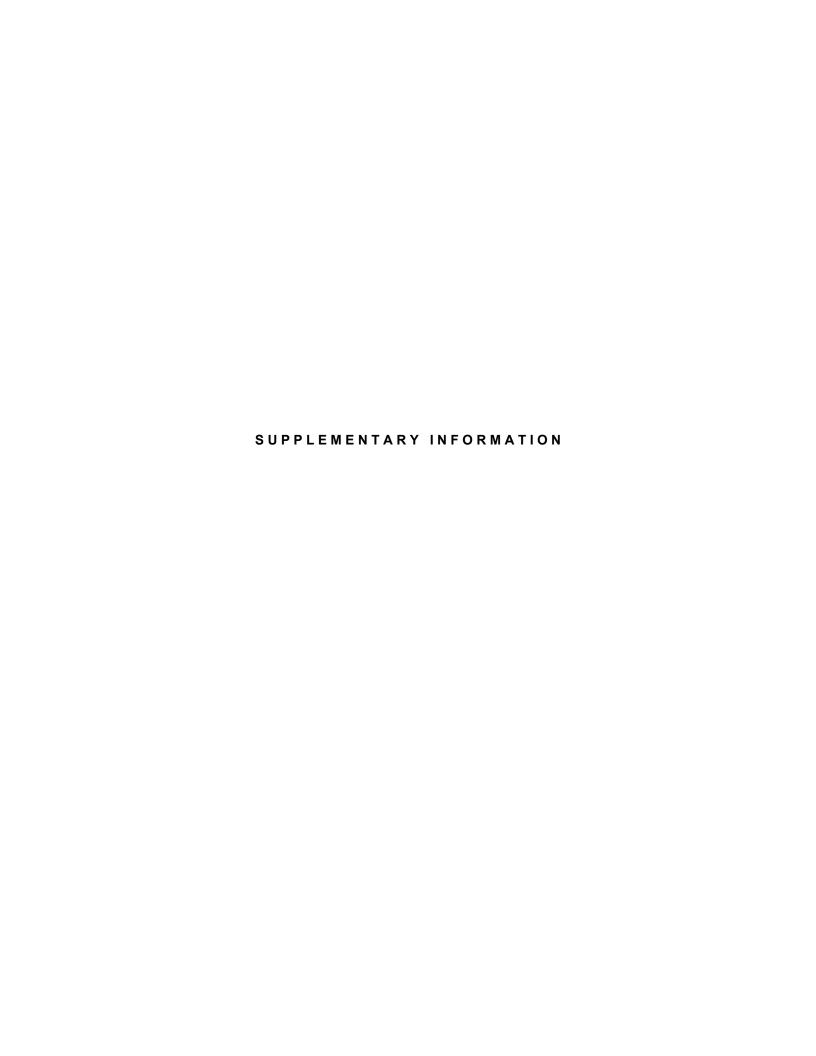

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION April 30, 2020

BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. Budget amounts are as originally adopted by the Board of Trustees. All annual appropriations lapse at fiscal year end.

Prior to April 30, the Village Finance Director submits to the Village Board a proposed operating budget for the fiscal year commencing May 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to July 31, the budget is legally enacted through passage of an ordinance. Formal budgetary integration is employed as a management control device during the year of the general fund and special revenue funds.

The Village is authorized to change budgeted amounts within any fund; however, revision must be approved by two-thirds of the members of the Village Board. No revisions can be made increasing the budget unless funding is available for the purpose of the revision. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The appropriated budget is prepared by fund, function, and department. The Village Finance Director is authorized to transfer budget amounts between department within any fund; however, the Village Board must approve revisions that alter the total expenditures of any fund.
